

ORGANIC NATTY NUT BUTTERS

Natty creates tasty and awesome organic nut butters in Estonia. It's quite nuts for a country known for potatoes, right? Correct, we really are Nuts!

Our nutfolio contains four different kinds of butters made either from peanuts, cashews, almonds or hazelnuts. At the end of last year the "Choco" line was launched - we mixed a few of our most popular nut butters with dark organic chocolate. This means our selection is now eight delightful butters strong! available!

Man, jars full of Natty goodness are just perfect for gifts.

A three-way gift box holds three of our most popular products in an awesome box.

Contains: Kranži - crunchy peanut butter with a pinch of sea salt, almond butter called Almondo and a decadent crunchy hazelnut butter with organic dark chocolate, nicknamed HansZolo.

No fuss, no muss - €28 per box with all the taxes included.

If you wish to mix and match the contents or customise either the boxes or the labels, please refer to the next page.
